The District of Columbia Army National Guard

Is an Equal Opportunity Affirmative Action Employer

Technician Announcement Number: 05-726

Position: Information Technology Specialist (NETWORK) 90034000

Brief Description of Duties:

Performs a variety of network device configuration and connectivity tasks. Executes procedures and coordinates corrective action to optimize network performance. Implements the standard configuration software loads for all network devices. Utilizes benchmarks and performance measurement and evaluation data to manage network servers and data communication devices to support normal and surge workload. Uses remote management software tools to maintain and update configuration, protocol and user/system files. Documents and tracks change to configuration, protocol and user/system files. Executes appropriate action to ensure backup processes are completed. Evaluates the performance of network devices such as servers, workstations and peripheral devices and remote access systems. Coordinates the development and implementation of configuration management plans for complex LANs and WANs with supported elements to include headquarters staff elements. Monitors distribution of applications and upgrades ensuring compliance with regulations and copyright laws. Implements the standard operating procedures for all devices on the network. Reviews and evaluates proposed software. Analyzes equipment and software reliability and utilization reports to identify and define problem areas and to establish end-to-end systems performance. Performs other duties as assigned.

Qualifications: GS-11

General Experience:

Technical, analytical, supervisory, or administrative experience which has demonstrated the candidates ability to analyze problems of organization, workforce, information requirements, etc. and provide systematic solution; and the ability to deal satisfactorily with others.

Specialized Experience:

Must demonstrate thirty-six (36) months experience in which the following Knowledge, Skills, and Abilities (KSA's) as described below have been attained.

Knowledge, Skills and Abilities (KSA's) Statements

- a. Knowledge of applying network design principles and concepts, network architecture principles and concepts, network protocols, and remote access technology concepts.
- b. Skilled in configuring hubs and switches, monitoring network performance, performing network diagnostics, analyzing network traffic patterns and installing network software fixes and upgrades.
- c. Skilled in establishing connectivity between remote sites and creating network maps.
- d. Skilled in troubleshooting network problems and implementing configuration management plans for complex LANs and WANs
